The Evaluation Team is comprised of law enforcement representatives, research scientists, resource managers, commercial fishermen, recreational fishermen, outreach experts, and non-governmental organization representatives. The Team is tasked with reviewing and providing recommendations for the ongoing research and monitoring, outreach, and law enforcement components of the Evaluation Plan.

The SAFMC extended the snapper grouper bottom fishing restrictions for the Oculina Experimental Closed Area (OECA) for an indefinite period in Snapper Grouper Amendment 13A. The amendment required that the size and configuration of the OECA be reviewed within three years of the implementation date of 13A and that a 10-year re-evaluation be conducted. The re-evaluation is the subject of this webinar.

The items of discussion during the data webinar are as follows:

1. Participants will initiate discussions on the re-evaluation of the OECA.
2. Breakout sessions will be held with the Evaluation Team to discuss Research & Monitoring, Outreach, and Law Enforcement components of the Evaluation Team.

Although non-emergency issues not contained in this agenda may come before this group for discussion, those issues may not be the subject of formal action during this

meeting. Action will be restricted to those issues specifically identified in this notice and any issues arising after publication of this notice that require emergency action under section 305(c) of the Magnuson-Stevens Fishery Conservation and Management Act, provided the public has been notified of the intent to take final action to address the emergency.
